## **MITSUBISHI DATA MANIPULATION**

Dear C&K Customers,

Quality is of the utmost importance to C&K. As you may be aware, Mitsubishi Cable Industries (MCI) and Mitsubishi Shindoh Co, Ltd (MSC) have admitted to manipulating some data. For this reason we immediately investigated the risk to C&K for using some of the materials impacted by this falsification.

We have started these investigations at the beginning of 2018, and this is currently still on-going. In addition to analyzing our use of these products directly at C&K, we conducted due diligence throughout our whole supply chain. We will continue our investigations until we get 100% of the answers and can confirm full compliance for all materials used.

This letter will be updated when this due diligence is completed.

We remain at your full disposal if you have any question regarding this subject.

Best regards

**Jerome BROCHOT**  
Global Quality Director  
C&K
